1. Unpack your bulb and screw it into your light fitting and turn on the light.

Connect with the ERIA hub

2A. Download the Adurosmart App from the Apple App Store or from Google Play or go to <http://adurosmart.com/adurosmart-app/>

2B. If you have a **third party ZigBee compatible hub** then proceed to step 10.

3. Open the AduroSmart ERIA APP. (For latest version, please check its online user manual.)

4. On the bottom right corner press on "Settings".

5. Select "Devices".

6. On the top right corner press on the "+" symbol then press on "Add device".

7. Select the device type.

8. Press on "Brands" and then select "AduroSmart ERIA".

9. Press on "Extended Color bulb"

10A. Switch the power to the light ON & OFF 5 times to initiate the pairing mode, the bulb will flash once indicating that it has entered pairing mode. The pairing mode will last **60 seconds**.

5x ON and OFF

10B. If you have a **third party hub**, then this is the moment to **initiate the search from your Smart Home hub app**.

11. Proceed by pressing on "Search" to allow the ERIA hub to find the bulb, the LED indicator on the hub will **flash green** this indicates that the hub is searching for devices.

12. When the bulb has been found and paired successfully it will **turn green** and it will show up in your search results, press on "Done" to complete the process.
