8. **Risk of shock!** be careful do not touch any exposed wiring.

Switch on the main power to continue.

Connect with the ERIA hub
9A. Download the Adurosmart App from the Apple App Store or from Google Play or go to <http://adurosmart.com/adurosmart-app/>

9B. If you have a **third party ZigBee compatible hub** then **proceed to step 16**.

10. Open the Adurosmart Eria APP.

11. On the bottom right corner press on "Settings".

12. Select "Devices".

13. On the top right corner press on the "+" symbol then press on "Add device".

14. Press on "Brands" and then select "AduroSmart ERIA".

15. Press on "on/off module"

16. To set the device into pairing mode use the pin to press the button for 2 seconds. The device will then go into pairing mode.

16B. If you have a **third party hub**, then this is the moment to **initiate the search from your Smart Home hub app**.

17. Proceed by pressing on "Search" to allow the ERIA hub to find the relay. The LED indicator on the hub will **flash green** this indicates that the hub is searching for new devices.

18. When the relay has been found and paired successfully it will show up in your search results, press on "Done" to complete the process.

19. **Troubleshoot**

If you are experiencing issues during pairing, then follow below instructions to reset the relay.

Locate the button on the module, press the button for 10 seconds and the LED indicator will flash quickly to confirm the reset.

10 seconds.
